# OFF SOFA SYSTEM

## A COMBINATION OF IDENTITY AND CONFORMITY

Irrational acts and things that appear atypical fascinate DSGNKNTR . We believe this creates personality and identity. However you don't get identity without conformity. No violations without rules. No order without chaos.

The logic of the OFF modules derives from the legs' positioning. They will always line up when elements are connected. As a consequence of the modular structure the seats misalign and never meet corner to corner. The main design idea is this combination of lines and elements ON and OFF. The details, stitching and buttons also follow a strict pattern. They diverge from the logic of the legs where the elements form a rhythmic movement and break the predictable.

The rule is the beat and the rythm is in the details

designed by

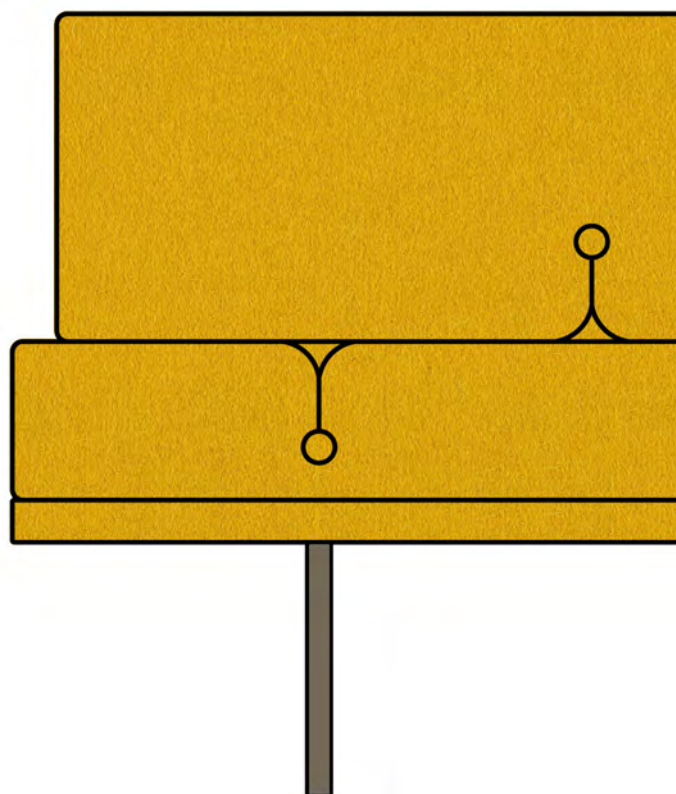

## DSGNKNTR

DSGNKNTR (Bjørn Jørund Blikstad og Sigurd Strøm) works mainly conceptually and practise based mixing design and art. They aspire to create solutions in order to make people wonder and question conventions.
